E-mail Notification

The **E-mail Notification** page allows you, as a parent, to set up an automatic e-mail update that is sent to you. You will select the specific type of information that you want to receive and how often you want to receive it. You must also enter the e-mail address(es) where the notifications are to be sent.

The screenshot shows the 'Email Notifications' form. It includes a list of information types with checkboxes, a 'How often?' dropdown menu, a 'Send now?' checkbox, and an 'Email Address(es)' text field. A 'Submit' button is at the bottom right. Numbered callouts point to: 1. The list of information types; 2. The 'How often?' dropdown menu; 3. The 'Email Address(es)' text field; 4. The 'Send now?' checkbox.

1. Select the box next to each information type you would like to receive via e-mail.
 - Summary of current grades and attendance** - Sends out one e-mail giving a summary of final grade and attendance totals for each of your child's classes. *This is the option most recommended for parents.*
 - Detailed reports showing all assignment scores for each class** - Sends out one e-mail for each class listing the assignments and scores. (Note: if your child has six classes you will receive six e-mails, one for each class.)
 - Detailed report of attendance** - Sends out an e-mail containing detailed attendance for each class in which your child is enrolled for the current term.
 - School announcements** – Sends out an e-mail containing announcements from your child's school.
 - Balance Alert** – Shelby County Schools does not have this function available to parents at this time.

NOTE: The more items you select, the more e-mails you will receive.

2. Using the pull down options, choose how often PowerSchool will send an e-mail to you.

NOTE: Because grades do not change dramatically over a short span, it is recommended that you not choose the **Daily** option. Either the **Once a Week** or **Once Every Two Weeks** option is the recommended choice. Weekly updates are sent out automatically on Monday night or the next instructional day if Monday is a school holiday.

3. Enter the e-mail address of the account to which you want e-mail sent. You can have these e-mails sent to multiple e-mail accounts by separating the e-mail accounts with commas, no spaces.
4. Select the **Send Now** option and click **Submit** to notify the PowerSchool server to send e-mail(s) to the designated e-mail account(s) now.

NOTE: At any time you can come back to this configurations screen and make changes to your choices. Upon selecting the **Submit** button, those changes will take effect.

The **Teacher Comments** page allows you to view any comments that teachers may have submitted for your child. From here you are able to view your child's current schedule with teacher names and comments.
