

ACADEMIC PLAN

Our theory of action is driven by the strength of our “instructional core” and the alignment of our academic supports and systems. We succeed when teachers and school leaders are equipped with proper curriculum and committed to a single mission: student achievement.

SCHOOL BOARD VISION

Our School Board represents the 100,000+ students and families we serve in Shelby County Schools. Their vision and guidance direct our efforts in support of Destination 2025.

DESTINATION 2025 GOALS

The academic plan is rooted by the District’s ambitious strategic goals for preparing every graduate for a degree or career. By 2025, 80 percent of seniors will be on track to enter college or the workforce; 90 percent will earn their diploma on time; and 100 percent of grads will enroll in a postsecondary opportunity.

KEY LEVERS FOR ACADEMIC SUCCESS

Instructional Leadership Directors (ILDs) support and empower principals to be strong leaders in their schools and communities.

ALIGNED SYSTEMS OF SUPPORT

The Central Office supports schools by providing collaborative services that ensure educators have the resources they need to deliver high quality instruction.

HIGH QUALITY INSTRUCTION

Our students receive high quality instruction when appropriate content is delivered by effective and equipped teachers.
