

Professional development opportunities around the new English Language Arts curricula are now available!

Sessions begin June 9th.

Teachers, Leaders, and other stakeholders are encouraged to register for one of the vendor led, virtual, professional development opportunities that will provide an overview of the new ELA curricula. The professional development options can be accessed via the links provided in *Teacher Weekly* and *Leader Board*.

Additionally, teachers, school leaders, and other stakeholders can begin to understand how the curriculums unfold by reviewing the scope and sequence documents for both *Wonders (K-5)* and *myPerspectives (6-12)*. Links to both curricula's scope and sequence documents will be included in the *Teacher Weekly* and *Leader Board* each week during summer publications.

For additional information, email CI_ELA_Team@scsk12.org
