## Show me the Money – Student Resource Sheet

You are looking to make some extra money afterschool and on the weekends with a part time job around your neighborhood. You have put out fliers to your neighbors that you are charging \$12 an hour to do some basic yard work such as raking leaves, weeding, shoveling snow, etc.

1. Complete the table below.

Number of Hours worked (hours)	Total Salary Earned (\$)

2. Write an equation to find your total salary in terms of hours worked.

3. How much money would you earn if you worked for 18 hours?

4. Explain how you can use the equation you wrote in number 2 to answer question number 3?

## Show Me The Money Graphing – Student Resource Sheet
