

# Ed-Fi Dashboard Use Cases

## Instructional Leadership Director

**Title:** Using Assessment, Grades, and Attendance Data for End-of-Year Meeting

**Role:** Jane McKee, Instructional Leadership Director (ILD) for Zone 19

**Background:** Ms. McKee, the ILD for Zone 19, plans to conduct end-of-year meetings with the principals in her zone. She will be working with each of her principals to assist in class assignments for the next school year. Ms. McKee hopes to work with the principals to look at assessment, grade, and discipline data to help each of her principals' think through how to best group students and teachers for the upcoming school year.

### Usage Scenario:

- In preparation for meetings with principals in Zone 19, Ms. McKee logs in to the Ed-Fi dashboards and navigates to the **Academic Dashboard tab**.
- She clicks the **Attendance and Discipline sub-tab** and scrolls down to the **Discipline** section where she can see the district's performance on the discipline metrics.
- She clicks the **"More"** button, selects **"School List,"** and **chooses one of her schools**.
- Ms. McKee is taken to that specific school's page and can now see the school's performance on the discipline metrics along with additional views such as a student list, historical chart, and grade level chart.
- She clicks the **"More"** button selects **"Student List."**
- Here, Ms. McKee compares student discipline incident data against state assessment performance and grades below C to identify trends, high-performing students, low-performing students, and those students in the middle.
- Based on this research, Ms. McKee is able to provide class assignment suggestions to her principal.
- At the upcoming meeting Ms. McKee and her principal will view the data in the dashboards, discuss the class suggestions, identify possible interventions, and talk through teacher assignments to support these groups of students.

STUDENT	GRADE LEVEL	CURRENT GRADING PERIOD	ATTENDANCE / DISCIPLINE		ASSESSMENTS		GRADES	
			State reportable Actions	Local Incidents	Algebra I TCAP EOC	English I TCAP EOC	# Grades Below C	Grades Falling 2
