LOCAL PREFERENCE PURCHASING

I. PURPOSE

To give a local preference to businesses located in Shelby County, Tennessee for the purchase of supplies, materials, equipment, and services.

II. SCOPE

This policy applies to District level contracts with a total dollar purchase greater than \$25,000.

III. DEFINITION

- A. Local Preference Purchasing means giving preference to businesses located within Shelby County, Tennessee in the purchase of personal property, materials, and contractual services and in constructing improvements to real property or to existing structures.
- B. Local Business means a vendor or contractor who holds a valid license to do business in Shelby County, Tennessee; has a street address within the limits of said locality for a continuous period of at least six (6) months prior to bid or proposal opening date; and has proof that Shelby County Personal Taxes are current (applies to local businesses who have been doing business in Shelby County, Tennessee for a year or more).

IV. POLICY STATEMENT

The Shelby County Board of Education recognizes that a significant amount of funds are spent on purchasing personal property, materials, and contractual services and in constructing improvements to real property or to existing structures. The Board also recognizes that dollars used in making purchases are derived largely from revenues generated from businesses located within Shelby County, Tennessee. The Board believes that funds generated in the community should be placed back into the local economy. Therefore, it is the policy of Shelby County Board of Education to provide a preference to local businesses in procurement transactions whenever the application of such a preference is reasonable in light of the dollar-value of proposals received in relation to such expenditures.

In the bidding of, or letting for procurement of supplies, materials, equipment and services, with a total price greater than \$25,000, if the lowest responsive bidder, is a regional or nonlocal business, then all bids received from Local Businesses are decreased by five (5) percent. The original bid is not changed; the five (5) percent is calculated only for the purpose of determining the Local Preference. The Local Preference cost differential is not to exceed one hundred thousand dollars (\$100,000.00).

In the case of request for proposals, letters of interest, best evaluated bids, qualifications or other solicitations and competitive negotiation and selection in which objective factors are used to evaluate the responses, Local Businesses will be assigned five (5) percent of the total evaluation points up to a maximum of five (5) points.

In the event of a tie between a local and non-local business, favor shall be given to the Local Business and a coin toss method will be used to break ties between two (2) or more local businesses meeting said specifications.

Exceptions

This preference shall not apply to purchases or contracts that are funded in whole or in part by a governmental entity if the laws, regulations or policies governing such funding prohibit application of the Local Preference; when exigent emergency conditions or noncompetitive situations exist; and when a particular purchase, contract, or category of contracts for which MSCS is the awarding authority is waived upon written justification and recommendation of the Board.

Restrictions

The Local Preference shall apply to District level purchases only. The preference shall apply to new contracts for supplies, materials, equipment, and services first solicited after January 29, 2013.

V. RESPONSIBILITY

- A. The "users" of services are responsible for furnishing an objective evaluation of their needs and for identifying the specifications of the services to be delivered.
- B. The Chief Financial Officer is responsible for developing final specifications and obtaining all bids, requests for proposals, and contracted service agreements.
- C. The Chief Financial Officer is responsible for ensuring that all services have been properly approved and all procedures followed before signing contractual agreements.
- D. The Superintendent is responsible for ensuring compliance with this policy.

Davis-Bacon Act and Related Acts

[\(40 USC §3141 et seq.; 29 CFR Parts 1, 3, 5, 6 and 7\)](#)

The Davis-Bacon and Related Acts, apply to contractors and subcontractors performing on federally funded or assisted contracts in excess of \$2,000 for the construction, alteration, or repair (including painting and decorating) of public buildings or public works. Davis-Bacon Act and Related Act contractors and subcontractors must pay their laborers and mechanics employed under the contract no less than the locally prevailing wages and fringe benefits for corresponding work on similar projects in the area. The Davis-Bacon Act directs the Department of Labor to determine such locally prevailing wage rates. The Davis-Bacon Act applies to contractors and subcontractors performing work on federal contracts. The Davis-Bacon Act prevailing wage provisions apply to the "Related Acts," under which federal agencies assist construction projects through grants, loans, loan guarantees, and insurance.

For prime contracts in excess of \$100,000, contractors and subcontractors must also, under the provisions of the Contract Work Hours and Safety Standards Act, as amended, pay laborers and mechanics, including guards and watchmen, at least one and one-half times their regular rate of pay for all hours worked over 40 in a workweek. The overtime provisions of the Fair Labor Standards Act may also apply to DBA-covered contracts.

Employee Rights

The Davis-Bacon and Related Acts provide laborers and mechanics on covered contracts the right to receive at least the locally prevailing wages (including fringe benefits), as determined by the Department of Labor, for the type of work performed. The [Wage and Hour Division](#) and respective federal contracting agencies accept complaints of alleged Davis-Bacon violations

Notices and Posters

Every employer performing work covered by the labor standards of the DBRA must post the WH-1321 ["Employee Rights Under the Davis-Bacon Act" poster](#) at the site of the work in a prominent and accessible place where it may be easily seen by workers. The applicable wage determination must be similarly posted.

Recordkeeping

Under the Davis-Bacon and related Acts, covered contractors must maintain payroll and basic records for all covered laborers and mechanics during the course of the work and for a period of three years thereafter.

Records to be maintained include:

- Name, address, and social security number of each worker
- Each worker's work classifications
- Hourly rates of pay, including rates of contributions or costs anticipated for fringe benefits or their cash equivalents
- Daily and weekly numbers of hours worked
- Deductions made
- Actual wages paid

- Detailed information regarding bona fide fringe benefit plans and programs, including records that show that the plan or program has been communicated in writing to the laborers and mechanics affected
- If applicable, detailed information regarding approved apprenticeship or trainee programs

Some of the records required to be kept under the law are also required under the Fair Labor Standards Act. See Wage and Hour Division [Fact sheet #21: Recordkeeping Requirements under the Fair Labor Standards Act \(FLSA\)](#).

Reporting

Each covered contractor and subcontractor must, on a weekly basis, provide the contracting agency a copy of all payrolls providing the information listed above under "Recordkeeping" for the preceding weekly payroll period, except that that full social security numbers and home addresses shall not be included on weekly transmittals, and instead the payrolls only need to include an individually identifying number for each worker (e.g., the last four digits of the worker's social security number). Each payroll submitted must be accompanied by a "Statement of Compliance" using page 2 of [Form WH-347 Payroll \(For Contractors Optional Use\)](#), or any form with identical wording, certifying compliance with applicable requirements. The statement is to be signed by the contractor or subcontractor, or by an authorized officer or employee of the contractor or subcontractor who supervises the payment of wages, and delivered to a representative of the federal or state agency in charge. This must be submitted within seven days after the regular pay date for the pay period.

From time to time, contractors may also be asked to submit, via survey, wage data from construction projects on which they have employed laborers and mechanics for use by WHD in determining the locally prevailing wage rates that will apply to Davis-Bacon and related Acts-covered projects in the future. The submission of wage data is encouraged, but voluntary. When new surveys are conducted to enable WHD to reflect the locally prevailing wages, contractors and others may use the [WD-10 Form, Report of Construction Contractor's Wage Rates](#).
