## Human Services

### JOB OUTLOOK

Overall employment of barbers, hairstylists, and cosmetologists is projected to grow 11 percent from 2021 to 2031, much faster than the average for all occupations.

About 93,800 openings for barbers, hairstylists, and cosmetologists are projected each year, on average, over the decade. Many of those openings are expected to result from the need to replace workers who transfer to different occupations or exit the labor force, such as to retire.
