

# Therapeutic Services

## Health Science

### JOB OUTLOOK

Workers in these occupations help clients maintain and improve wellbeing.

Therapeutic careers are projected to have a total annual average number of openings of over 2,200 and estimated employment of over 63,150 by 2024. The therapeutic careers can be further broken down into groups of related occupations such as physical and respiratory therapies, dental, pharmacological, and nutritional services. Each of these areas have projected positive growth from 2014-2024 with medical assistants, dental assistants, and pharmacy technicians projected to have the largest number of openings.

### OCCUPATION PROFILE

Therapeutic Services is designed to prepare students to pursue careers in fields of dentistry, pharmacology, nutrition, or rehabilitation. Upon completion of this program, a proficient student will be able to identify careers in therapeutic clinical services; assess, monitor, evaluate, and report patient/client health status; and identify the purpose and components of treatments. Students have the option to take part in a clinical internship at the end of this program of study.
