OFFICE OF STUDENT SAFETY

Safety Special Project Coordinator Program

G.R.A.S.S.Y

"Creating a culture of safety for all"

Purpose

The purpose of the Safety Special Project Coordinator (SSPC) is to enhance school safety and student well-being by providing targeted intervention and prevention services to students exhibiting violent, aggressive, or gang-related behaviors. This role aims to reduce incidents of school-based violence and ensure a safe, supportive learning environment for all students.

Vision

The Safety Special Project Coordinator (SSPC) envisions a school environment where every student feels safe, supported, and empowered to reach their full potential. Through targeted intervention, mentorship, and collaboration, SSPCs work to interrupt cycles of violence, reduce risk factors, and cultivate a positive school climate. We strive to be trusted advocates and changemakers; amplifying student voice, restoring hope, and ensuring that safety and support are foundational in every school we serve.
