2009-2010 Essay Contest Subject

"By creating a budget, saving and investing, you can accomplish personal financial goals like paying off debts, buying a home, saving for retirement, developing an emergency fund, or even starting your own business. Some people think they are wealthy because they live in a large house, drive a fancy car, and travel around the world. Some people think they are wealthy because they are able to pay off their bills each month. Others think they are wealthy because they are able to contribute to charities and help others whenever they like. What is your definition of financial wealth, and how do you plan to achieve it?"
