

How You Can Help

You're invited to join MSCS in hosting district students as interns within your organization. Memphis-Shelby County Schools has strong partnerships with the local business community; we have an amazing opportunity to strengthen those partnerships through the lives of our young people. With our local corporate partners and vendors alongside us, we know that we can make a larger impact than just hosting students internally.

Program Benefits

This program serves dual benefits, offering students industry exposure and providing the District and business community with a "build the bench" approach to equipping students for the workforce. The expectation is for our students to gain valuable workplace experience and skill development, explore career paths relative to their interests and build relationships with industry professionals, all toward their post-secondary success.
