### QUESTIONS AND ANSWERS

#### **IFB # 12082023MT – MIDDLE COLLEGE**

**Does the drain on field belong to the City or Shelby County Schools?**

**Shelby County Schools**

**What other options does the awarded contractor have to address the drain, or will that be a decision made or recommended by the awarded contractor?**

**Drain can be addressed by other options that produce the safest method without restructuring the existing system. Recommendations can be made by the contractor.**

**The request was made in the walkthrough on 11/28/23 by SCS representatives that the batting cage be disassembled and relocated, from under the trees and power lines. Can someone from SCS clearly mark the area where batting cage will be reassembled and located on the field?**

**Yes. Area can be marked.**

**Can the SCS representative or Project Manager be more specific, in the request for evergreens to be placed along the sidewalk near Gym? Number of evergreens to be placed in that area?**

**Minimum six maximum eight. (Area along the sidewalk on the north wall of gym). Create a separation. (Nature barrier)**

**Where is water source/ meter on field to tap into for irrigation system installation?**

**Source can be tapped from gymnasium sources. (MSCS Master Plumber will designate the most suitable tap source.**

**Will the contractor need to contact MLGW to have a dedicated water meter installed which could possibly take 30 -90 days?**

**Existing water access is efficient. MSCS prefers a system that only requires permission.**
