QUESTIONS AND ANSWERS

IFB 08102026DEM Cafeteria Tables for Hillcrest High

1. Item 1.5 - MST88D States: 25" table height 13" stool height
The rest of the tables (except for MGST3652-42D)
29" table height 17" stool height. Since this is a high school, the 29" table height and the 17" stool height should be specified for this table. 25" and 13" are generally for smaller students like elementary grades.
Can you clarify that the specification in the bid is correct? If it is not correct the product number does not change, we just need confirmation that the 29" table height and the 17" stool height is the new specification.

Answer: The table height and stool height for Item 1.5 Rectangular Stool Table (MST88D) has been revised to:

Table Height :29"

Stool Height: 17"

Thank you,
