QUESTIONS AND ANSWERS

IFB# 01172023MT – SCS District Wide Water Distribution

- 1. Could you explain a little more about type of insurance I would have to have? What type would I have to provide?**

The bid outlines all the insurance requirements that are necessary to bid on this IFB. Please consult insurance agent if you need further insurance information.

- 2. I will be working as well contributing work towards the bid to make sure you receive all the requested quantity of water. Do I have to deliver the water myself, or can I have a company to deliver for me and if so, will they need to go through tbi to get pass to be around students as wel?**

This IFB requires for the water to be distributed to all schools mentioned in the school as well as the MSCS warehouse.

You would be responsible for delivering the water to the locations requested. If you use a third-party, they will need to provide their insurance coverages as well.

Thank You,

Procurement Services
